Bully's New Hitch Light

News Release

Bully Truck Accessories is offering a Ball Mount "Hitch Light", winner of the '07 SEMA international Award. The unit slides directly onto a standard 2" ball mount with no drilling. It offers a convenient auxiliary lighting source (70W lamps) for towing as well as backing up. The light unit is supplied with a 3-way switch. It can be used as a temporary or permanent rear light source. This Hitch Light is light weight, simple to install, with universal application. Bully Hitch Light is perfect for boaters, campers & hunters.
